

Mid-Level UI Web Developer

The Company

Mobile Accord is one of the world's leading mobile solutions companies. Headquartered in Denver, CO, Mobile Accord operates mobile services in North America, Central Asia, and Africa connecting billions of people to multi-national corporations, aid organizations, and governments through their mobile phone with its mGive and GeoPoll services.

Established in 2005, mGive created the United States mobile donation market by introducing the first mobile donation platform tailored to nonprofit organizations. Today, more than 85 percent of domestic mobile donations are powered by mGive. We serve more than 500 leading nonprofit organizations and have launched over 7,000 mobile campaigns for our clients. The mGive platform is a scalable enterprise grade SaaS offering that leverages SMS (text) messaging for donor engagement and fundraising.

About GeoPoll

GeoPoll is a mobile polling platform that empowers organizations to conduct surveys through the mobile phone. GeoPoll is deployed in countries in Africa and Central Asia. The service gives organizations access to GeoPoll's proprietary user database which allows organizations to survey millions of people targeted by location and demographics. GeoPoll allows close to real time surveying, at no cost to the survey respondent, providing organizations the information they need, when they need it.

GeoPoll is a growing company of over 60 passionate, smart people from around the world. We leverage the mobile phone to track media ratings, brand health, and key performance indicators for clients including local and international media houses and brands, research agencies, and NGOs.

About This Job
